9-1-1 Call Pick-Up Performance

This performance standard is based on the nationally recognized National Emergency Number Association (NENA) standard of 90% of incoming calls answered within 10 seconds and 95% of incoming calls answered within 20 seconds.

DCC Standard: 80% of incoming calls answered within 7 seconds
 90% of incoming calls answered within 10 seconds
 95% of incoming calls answered within 20 seconds

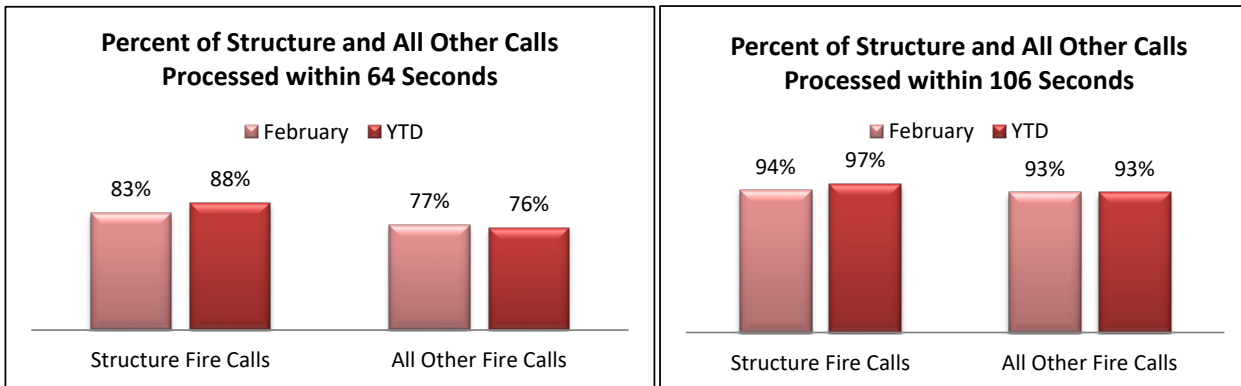

Fire Call Processing Times

Fire call processing times are measured from the time the telephone rings through completion of the initial dispatch, often referred to as "ring to ding". DCC standards are taken from the NFPA standard 1221.

NFPA Standard for Structure and All Other:

90% of calls processed within 64 seconds

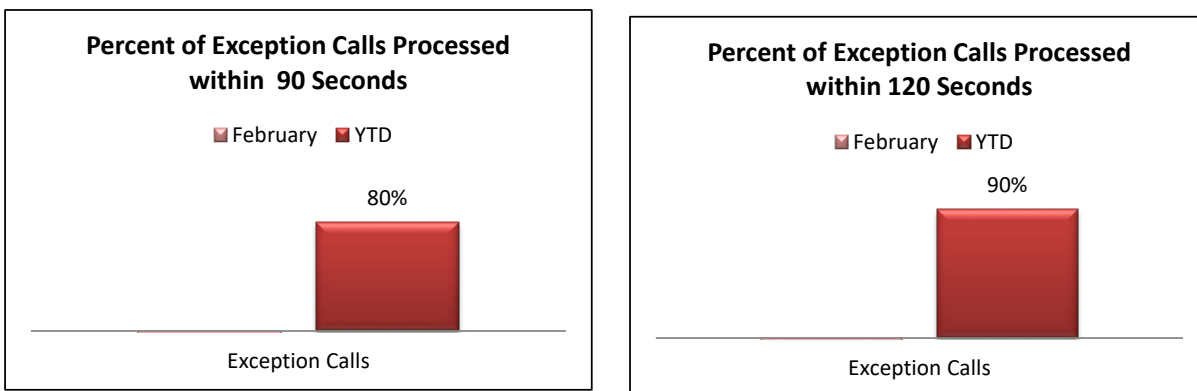

95% of calls processed within 106 seconds

NFPA Standard for PI Accidents with Confirmed Entrapment and Exception Calls:

90% of calls processed within 90 seconds

99% of calls processed within 120 seconds

Exception Calls include HAZMAT, Water or Ice Rescue, EMD #22, when there is the need for TTY, use of Language Line or where there are difficulties determining a location. (Any call included in the exception category due to location difficulty has been reviewed.)

Law Enforcement Call Processing Times

As there is not currently a designated national standard, the Law Enforcement Operations Committee has designated a standard that identifies certain priority one call types that should be created within 55 seconds on average. The dispatching of priority one calls varies based on individual agency protocol so it is not considered in the standard.

DCC Standard: Average total creation time of 55 seconds or less for the following incident types
 Assaults Fights Robberies
 Domestics Personal Injury Accidents Weapons

Emergency Medical Dispatching

Emergency Medical Dispatching is a call processing protocol used to determine the severity of medical emergencies. The EMD protocol determines level of response by local providers while enabling the dispatcher to offer pre-arrival instructions to the victim. The performance standard is based upon Priority Dispatch Quality Assurance (Pro-QA) guidelines.
